WHY NOT HERE.

One hundred and fifty miles of highway built through five West Tennessee counties by 18,000 men and boys in a single day probably breaks all records in highway construction. But this was what was done by the enterprising people of that section Thursday when every shop was closed, every farm deserted and men of every walk in life left their wonted occupation to give a full day to the good roads movement and made a signal success of the enterprise.—Nashville Banner.

Why would our people not do something like this when the work begins on our county roads a few weeks hence? The time is none to long to begin working on similar plan for this county. There is not a man in the county that cannot afford to put in one day at actual labor on our roads. No one would be hurt, but our roads would be much benefited and incidentally the whole people would receive such an awakening as we need very badly and several miles of good road would spring into being as if by magic.

We feel sure the people of Cumberland county are as patriotic and progressive as in West Tennessee and the proper organization would result in splendid results. Why not call a mass meeting at the court house Saturday and put the ball rolling.

There is no one thing that needs to be taught in our schools more than a knowledge of how to compound fertilizers, what plant foods are needed for the principal crops and the cheapest methods of getting the needed fertilizer.

Geometry and the languages are all right in their place, but their place is after the boy or girl has learned the practical things about making a living.

Not many of our teachers, we are sorry to say, know much about how to grow crops, improve land and home economics, but they could very soon learn and by imparting it to their pupils they will be giving them the best life lessons possible, for such things are of the practical kind and mean an easier road to an independent living.

One of the most serious problems the street railways have to face is how to meet the competition of the jitney. It must be met and will not be worked out in a jiffy either.

While the jitney is cutting the profits of the street railways the automobile freight lines within a radius of forty or fifty miles of the large cities are reducing the income of the railroads greatly. It would seem the railroads have about all the burdens they can carry without this unexpected competition. That is another of the problems of transportation that must be worked out and the task is no easy one.

It is very probable that silos will be needed this year worse than for many years, because the large amount of rain fall made it practically impossible to keep the corn crop clean enough to produce the maximum yield of corn. That being the case the stalks need more than ever to be saved and converted into feed for the stock.

The Progressive Farmer contends that any farmer who winters twelve head of cattle needs a silo.

All thought of starving the German nation is at an end for they are not only growing more food this year than ever before, but they control many thousand square miles of French, Belgian and Russian territory from which they are reaping crops. The efforts

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," in plain wrapper. N.C. 124

of the British to starve the Germans is about as successful as the German submarine blockade of the English ports. Both are causing the other considerable trouble, but neither are proving very effective.

Any farmer who milks three or more cows will find a separator a very profitable tool on the farm. It will enable you to feed the milk to the calves when warm and will save the good wife half the labor she has the old way. The butter you make will sell more readily and you will get at least five cents more butter from the milk that it now takes to make a pound of butter. That alone would soon pay for the separator.

If the utterances of the warring nations are to be taken at full face value, the war has hardly begun and we may expect it to continue for at least two or three years yet. But there is no probability that any of the contestants feel so cock sure of success as they would have the world believe. However, when the breakdown will come and when peace talk will receive serious attention is quite a distance in the future.

The average life of a horse or mule in the war service is said to be seven days.

INFORM THE EDITOR.

One of the most difficult of the editor's jobs is to get facts about births, marriages and deaths. People seem to think he ought to know these things by intuition.

If not that, the birth, marriage or death is of such importance in the immediate family that it is presumed the editor will be informed by some wireless or just grow into the information. Then, when the paper comes out, and no mention is made of the event, the editor is blamed for not running a good newspaper or not getting all the news.

Remember there are a good many people in this county. If the editor knew each of them by name, besides their family history and the chief events in the lives of every individual, he wouldn't be an editor. He'd be a demi-god, resting his feet on a cloud and sipping ambrosia instead of inhabiting a broken-down office chair and wondering where the money for the next white paper bill is coming from.

The life of the average newspaper man is a gay one. Gathering news is second nature to him, like picking his teeth with the office pen and cussing the office towel. Just the same there is a limit to his omniscience.

Last week, we thought of a million, eight hundred and forty nine thousand three hundred and sixty four things of importance, besides a couple of hundred thousand small items unworthy of mention. And it was a slow week.

We're anxious for news for the paper, and it won't put you out much to drop by the office or telephone us what's happening at your house. Then if the item doesn't get in the paper, you have a right to come down and kick the stuffing out of the office cat. Otherwise, don't blame us.

Crab Orchard

Mrs. John Milligan and Miss Thelma and Frank, spent last week in our town guests of her father, A. Dorton, and sister, Mrs. Perry Howard.

Mrs. George Vitae and children, who have been visiting her brother at Creston, returned home Saturday.

Miss Nell Fritts, of Rockwood, spent last week the guest of her aunt, Mrs. T. H. Aytes.

The two guests of Miss Edith McCamy, Miss Cora Brady, of Crossville, and Miss Stowers, of Rockwood, have returned to their homes.

Miss Elizabeth Hatfield and sister, Mrs. Alfred Green, were shopping in Hartman last week.

G. A. Haley was looking after his hay crop last week and shaking hands with friends on our streets. Mr. Haley has his farm in splendid shape and his crops look fine. He has also improved the looks of his place by having his house painted. C. J. Wheeler and Shelly Rose also had their homes painted, which adds greatly to the looks of our town.

Mr. and Mrs. Will Brooks have moved into the new hotel. The house is not finished, but they are working rapidly on it and hope to have all finished soon.

Aunt Ann McEwen, who for the past three months has been confined at home on account of a fall she received, were glad to see in town yesterday. She will remain this week the guest of Mrs. Dave Hatfield, and attend the revival at the Methodist church, south.

Mrs. Mitchell and Upham motored down from Crossville Saturday afternoon to see Mark Barnes, who has been under Dr. Mitchell's care for some weeks.

Mr. and Mrs. N. D. Walker children drove to Crossville Sunday and were the guests of Mr. and Mrs. G. T. Renfro for the day.

Clyde Wheeler is home for vacation. Quite a few of our young people attended the ice cream supper in Grassy Cove Saturday night. All report a good time and plenty of good cream.

Miss Marie Cline went to Rockwood Sunday to be the guest of the Misses Howard.

Miss Lou Haley, of Friendsville, was the guest last week of relatives here.

Miss Gladys Davenport, of Grassy Cove, spent last week the guest of Miss Marie Cline, returning home Saturday evening.

Will Ellis, who has been quite ill with fever is much better.

Mrs. R. F. Rose is convalescing after a two weeks illness.

N. D. Walker is home from a business trip to Knoxville.

Mrs. Charlie Sherrell and little daughter are improving rapidly from pneumonia. They have been ill about two weeks.

We are glad to learn Mrs. John Turner is convalescing from an attack of appendicitis.

Sam Huttsell is home from a business trip to Spring City.

Mr. and Mrs. Lawson Martin and children came in from Spencer, N. C., and are guests of Mr. and Mrs. G. W. Renfro, for a few days before going to Mr. Martin's father at Meridian. Mr. and Mrs. Mark Wyrick came with them as far as Oakdale, where they stopped for a short visit to Mrs. Wyrick's brother, Luke Stansbury.

A. Dorton fell last week and hurt himself slightly; is able to be out now.

Mrs. Sallie Cate is the guest of her daughter, Mrs. J. S. Baker.

Jake Helton and two little girls are on the sick list this week.

Rev. Keithley, of Monterey, preached two splendid sermons Sunday at the Methodist church. Our people are delighted to have Bro. Keithley with us during the revival for this week. He will preach at 2:30 every afternoon and at 7:30 at night. All are invited. Bro. N. B. Taylor is leading the singing, which is splendid.

Mrs. John Reed has as her guests her sister and brother-in-law, Mr. and Mrs. Bol Pippin, of Cookville.

Mr. and Mrs. Jim Hinds, of Rockwood, are guests of Mr. and Mrs. J. S. Rose.

Mr. and Mrs. Charlie Deatherage came down Sunday from Dorton and spent two days with her parents, Mr. and Mrs. John Reed.

Mrs. Jane Steelman, who is a member of the Holy Roller church, was handling a copper head snake during services Sunday night and was badly bitten and is still in a serious condition.

Mrs. T. H. Aytes has taken one of the Holloway twins and Mrs. Geo. Gang the other. They are slowly improving.

Some of the girls of Crossville came down Saturday evening and were joined by Miss Nell Fritts, of Rockwood, and enjoyed lunch in the spring pasture.

MARVELOUS RECORD.

Only One Death in Over Sixteen Millions of Passengers.

Atlanta, Ga., July 16.—More than sixteen and a half million passengers—a number greater than the combined population of Virginia, North Carolina, South Carolina, Georgia, Alabama, Tennessee and Kentucky—were transported by the Southern Railway during the year ended June 30 with only one fatal injury to a passenger while on a train and that one was standing on a car platform in direct violation of the Company's rules.

Or this great number of passengers, not one was killed in a train accident. This excellent record was shown in the official figures given out today indicating the high degree of safety that has been attained in the handling of Southern Railway passenger trains.

In marked contrast are figures recently given out by President Fairfax Harrison, of Southern Railway, showing that during the same period twelve persons riding in automobiles were killed in accidents at public highway crossings, every one of which accidents could have been prevented had the driver of the car observed the familiar warning, "Stop, Look and Listen."

TAKE OUT THE ASHES.

Uremia is due to the circulation in the system of poison and waste products that should be removed from the blood by the kidneys. If the ashes are not removed the fire dies and the machinery stops. So with the waste product of the system. Foley Kidney Pills help the kidneys remove the waste matter that causes rheumatism, aches and pains, stiff joints and sore muscles.
